

Outdoor LCD Product Lines

imotion

G7

FLOW

LITE

imotionG7 systems are truly unique in its set up. They can be deployed in toughest of the environments and still deliver best visual performance, highest operation reliability and longest useful life time on the market.

A product line, made for direct sun exposed areas in temperature range between -25°C and 40°C . Sign is based on IP56 ventilation thermal system and high on-surface LCD panels (110°C).

A semi-outdoor product line is intended for NON-direct sun exposed places, such as metro stations and roof covered areas.

Product Comparison

imotion	G7	FLOW	LITE
INTENDED LOCATIONS	Sun exposed – full outdoor	Sun exposed – full outdoor	No sun exposure – semi outdoor
OPERATING AMBIENT TEMP.	-40 °C to +55 °C	-25 °C to +40 °C	-20°C to +40 °C
AIRFLOW LOOP	Closed	Open	Open
COOLING	Advanced silent HVAC	Ventilation	Ventilation
ENCLOSURE RATING	IP66	IP56	IP55
INNER ENCLOSURE TEMP. DYNAMICS	20-25 °C (unique trait!)	5-50 °C	5-50 °C

imotion G7

UNIQUE FEATURE

imotion G7 thermal management

Extended expected LCD life time (70.000h, +30%)

Constant peak luminance output when max solar load

SPECIAL FEATURE

Automatic maintenance call and failure notification

No need for regular maintenance

No filters

Clear HQ glass

4+4 mm thermally toughened Guardian glass

Infinitus diagnostics support

imotion FLOW

SPECIAL FEATURE

Automatic maintenance call and failure notification

No need for regular maintenance

Filter clog alarm

4+4 mm thermally toughened Guardian glass

SUPPORT

Infinitus diagnostics support

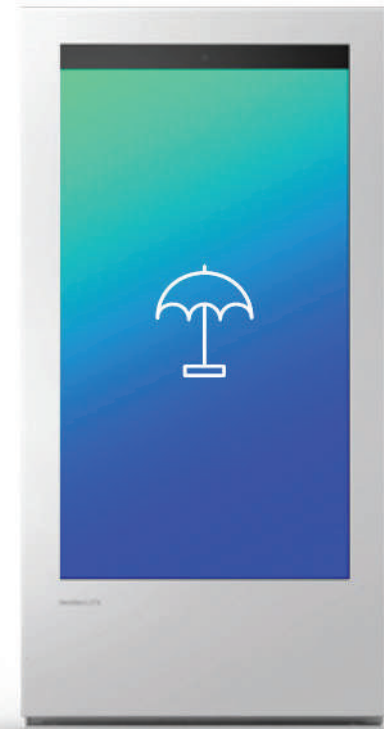

imotion LITE

SPECIAL FEATURE

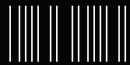

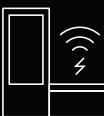

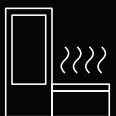

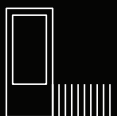

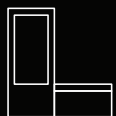

4+4 mm thermally toughened Guardian glass

SUPPORT

Infinitus diagnostics support

Automatic critical
alerts

 Controlmotion will take care of
your displays, so you don't have to.

When deploying displays in real-world scenarios, uncertainty is a constant challenge. However, with imotion self-monitoring feature, you can rest assured knowing that over 100 operating parameters and settings are meticulously tracked and relayed to the Controlmotion Portal.

- Remote unit control
- Automated monitoring and alerts
- Energy efficient - adaptive to real demands
- Maximize display up-time
- Minimize on-site service calls
- Lower After-purchase activities

Which one to choose?

Basic

Advanced

Enterprise

24/7/365

Instant control over imotion products.

Alarms

Critical events can be sent via predefined email.

Cloud based

Hosted on the Microsoft Azure, a leading cloud computing platform.

Customer Portal

Enables controlling and monitoring of the entire network from one central webpage.

Easy Support

Enables active email and phone support, requiring no specific steps (no logs & readings...)

Automatic updates

New features and optimized performance updates without manual interventions.

Advanced functionalities

Personalized Alerts, Advanced analytics, Location map, Advanced user management and much more.

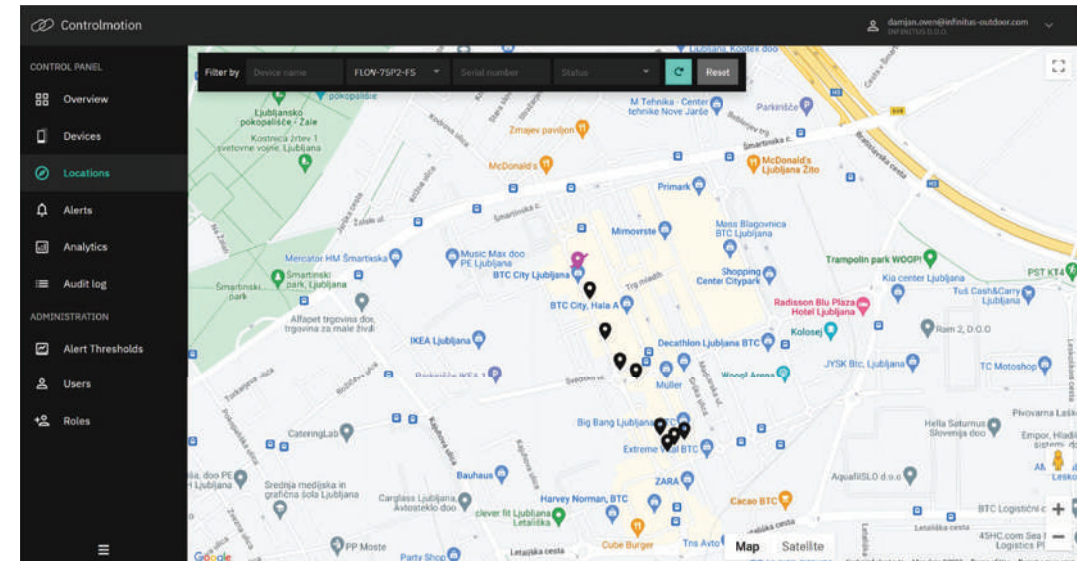

Proactive Infinitus support

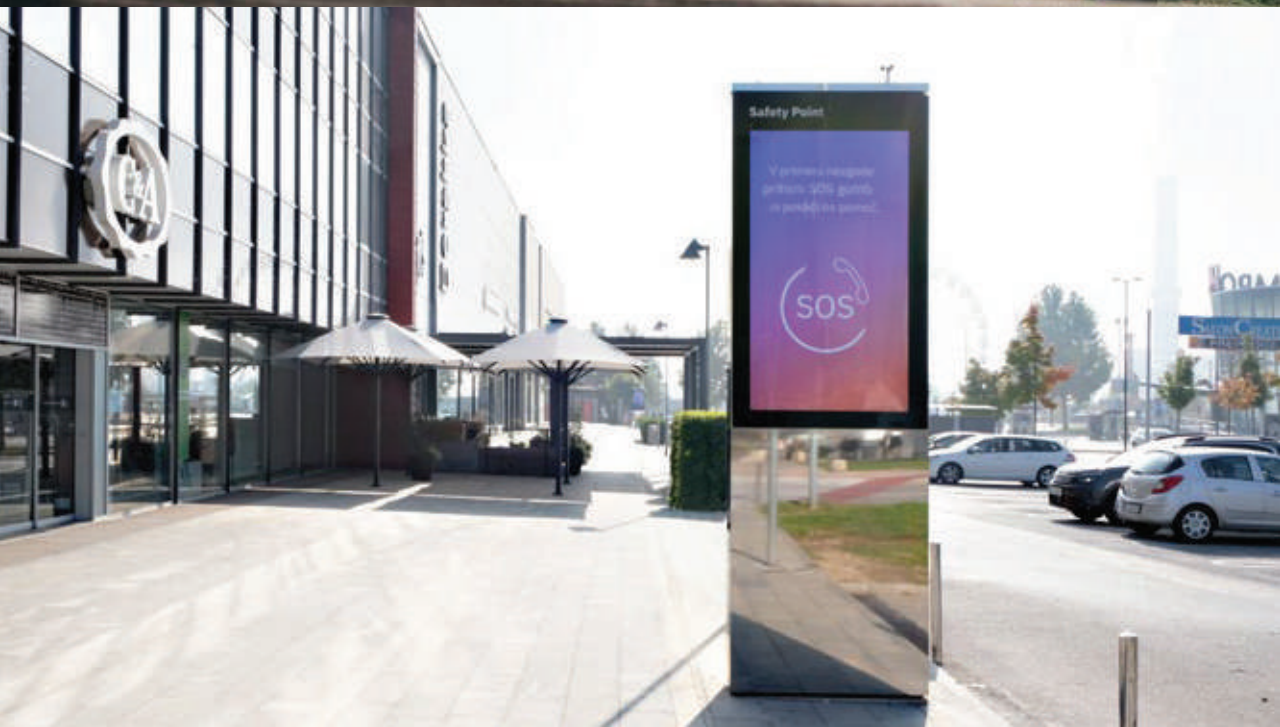

Infinitus proactively monitors and alerts customers about potential system issues and proposes required solutions.

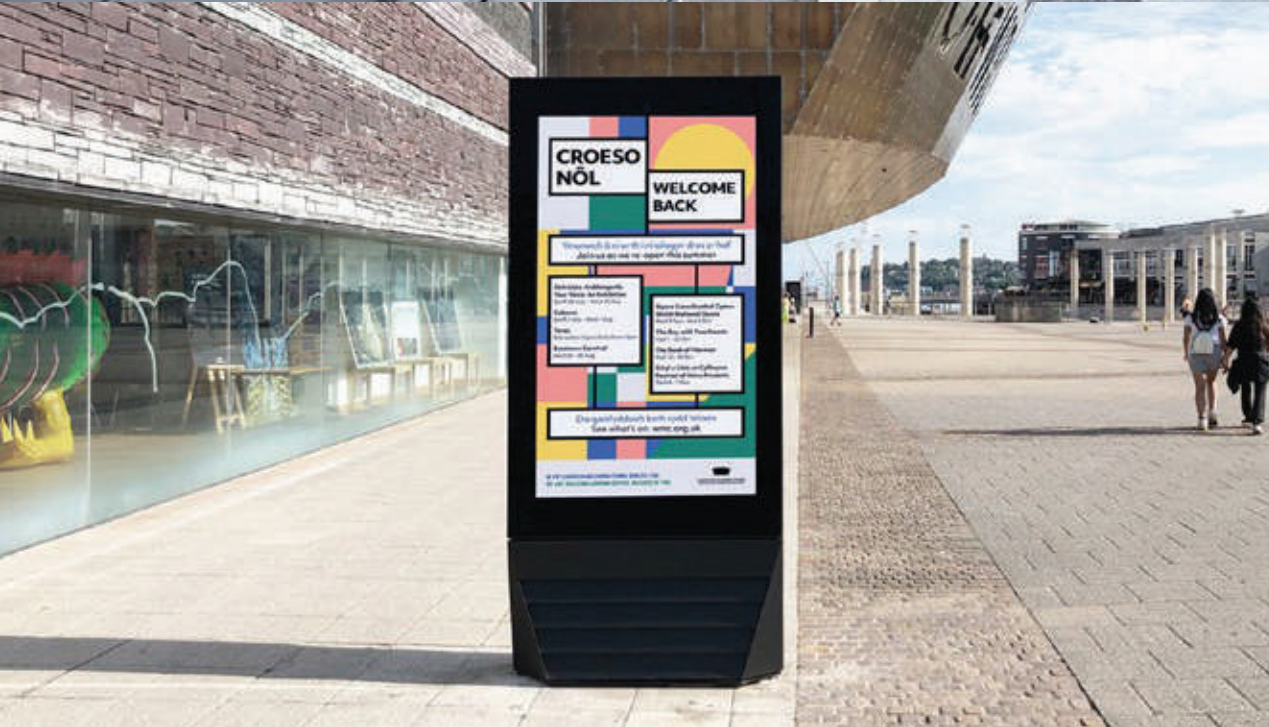

Priority assistance and support

Special attention, faster response times, and dedicated resources to address inquiries, issues, or requests.
